

Soil Profile

VISON EMPOWER

By:

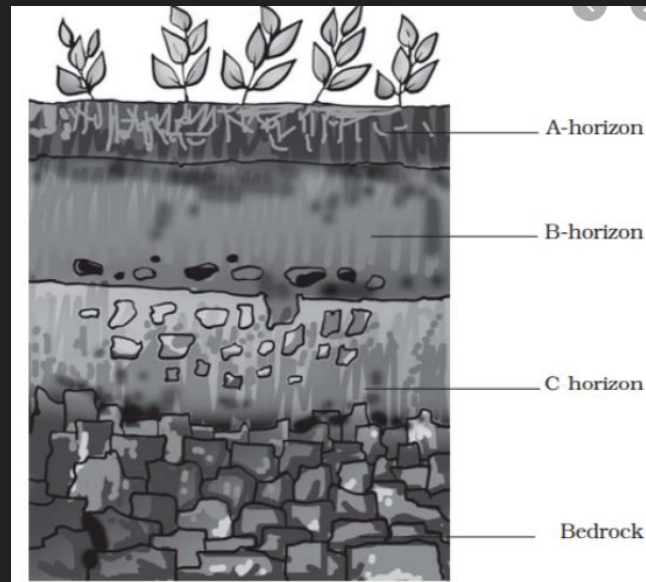

Caren Elza Mathew

Materials required:

- A3 card sheet
- Artificial leaves
- Smooth gift wrapping paper
- Foam sheet
- Sand paper
- Net cloth
- Glue

Steps involved:

- Step 1: take an A3 size card sheet and make a rough drawing of soil profile with pencil.

- Step 2: Stick the artificial leaves as per the diagram
- Step 3: Make a cut out from the gift wrapping paper in the shape of A-horizon and attach to the base card sheet.

- Step 4: make a cut out from the foam sheet in the shape of B-horizon and paste it to the base card sheet.
- Step 5: Like wise, make a cut out of the sand paper and net cloth in the shape of C-horizon and Bedrock layer respectively. Paste them to the base card sheet.

Tactile diagram
of soil profile is
ready.

Thank You!
